Only the duly elected/designated Fire Chief may authorize these permits and will be responsible for any misuse of red lights and siren. This permit does not relieve the driver from due regard for the safety of all persons, nor from the consequences of reckless disregard for safety.

Upon sale or transfer of the permitted vehicle, the permit shall be returned to the WV State Fire Marshal's Office. Failure to return a permit which is no longer valid may result in non-issuance of future emergency vehicle permits.

When placing your Permit on your windshield, place it 1 (one) inch above your State Inspection Sticker on the driver in-side of your windshield.
